

CAMPUS ELECTION ENGAGEMENT PROJECT

Sample Voter Registration Script

Hey! I'm _____ with _____. Today we're talking with students on campus about registering to vote. Have you updated your voter registration lately?

NO, I haven't.

That's okay! I can help you register right now. There's a couple things I need to know to start the application. Are you an American citizen? And are you 18 years or older?

*If they answer NO to either question, they are unable to register.

YES, I'm already registered.

Great! Are you interested in signing a pledge to participate in this year's election?

*Hand a pledge card and have them complete it.

Not Sure

We can help with that! Let's check by using <https://www.vote411.org>.

*Follow by visiting the website and typing in their address to see if they are registered there. If they are not, help them complete a registration form.

Thank you for participating in democracy!

*Always end with a friendly closure.
